ISI LEIBLER 1934-2021

"Isi Leibler was an outstanding figure, a combination of vision and energy. Isi was the first to understand the importance of fighting for Soviet Jews. Already in the early '60s, he mobilised the Jewish community of Australia, the most remote among the Jewish communities of the world, to help us in our struggle. And later, he expanded his activities internationally.

"The historic victory in the struggle for the freedom of Soviet Jewry couldn't be achieved if it wasn't for the mobilisation of the entire Jewish world."
